Superstation

Stir

Welcome to the party, are you having fun?
We're going on a magical ride
Driving to the limit and when we're done
You will not believe your eyesHold onto your ticket, let's go to the show
Bring your friends and stand in line
When you get inside it's time to let it all go
And you'll be begging for another rideIt's time to see the sky
The winter and the summer
Come ride with us
And feel the love of one anotherWon't you ride my superstation?
Won't you ride my?
Won't you ride my superstation?
Won't you ride my?Once you come aboard, you can never go
Back to your place in life
Call your mom and dad and say, "I told you so"
You're staying until the end of timeYou came to see the sky
The winter and the summer
So shake the hand of
Your new sister and your brotherWon't you ride my superstation?
Won't you ride my?
Won't you ride my superstation?
Won't you ride my?Won't you ride my superstation?
Won't you ride my?
Won't you ride my superstation?
Won't you ride my?Won't you ride my superstation?
Won't you ride my?
Won't you ride my superstation?
Won't you ride my?[Foreign Content]
