

These Days (2010 Remastered Version)

Joy Division

Morning seems strange, almost out of place
Searched hard for you and your special ways
These days
These days Spent all my time, learnt a killer's art
Took threats and abuse 'till I'd learned the part
Can you stay
For these days? These days
These days Used outward deception to get away
Broken-heart romance to make it pay These days
These days We'll drift through it all, it's the modern age
Take care of it all now these debts are paid
Can you stay
For these days?
