Saved By Love

Stryper

We've been adrift, upon the oceans
Trying to sift through our emotions
There's no land in sight as we sail through the night
Looking for something to see - suddenly...[Chorus:]
We're Saved By Love
We're Saved By LoveWe can't forget, what brought us this far
It's heaven sent, beyond the big star
Just when we're feeling that we're going down
We can't go on anymore - we're restored[Chorus:]
We're Saved By Love
We're Saved By Love[Bridge:]
We can't go on if we feel there's no wrong
Hurting the ones that we need
When brothers and sisters are moving along
Reaping and sowing the seed
Oh the one thing that we have that lights up the dark
And shows us what we need to see - look above
