In the Morning

Ledisi

I need you, I need youIn the morning, will you be there in the morning to love me
Love me, love me? I don't know what it is about your love
And what you've got that keeps me running back to you
Telling me lies saying things that will keep me from leaving
Be a man not a boy running from the truth you're alwaysLeaving late at night, you never come home
And when we have a fight 'cause you're doing me wrong
Still I can't leave you're leaving me wonderingWill you be there in the morning?
Will you be there in the morning?
Will you be there to love me, love me, love me?
I need you here with me in the morning, morning
Will you be there to love me, love me, love me?I don't know what it is about our love
And ll of my friends say I'm crazy waiting here for you
We got a love so strong and I can't see me leaving
They don't understand the things that we go throughI'm always telling you come home 'cause I need you here
And you're hanging out all night long
And you disappear still I can't leave
You leaving me wonderingWill you be there in the morning?
Will you be there, will you be there in the morning?
I need you right here with me, to love me
To love me, love me, love me, love meIn the morning, in the morning, baby, I need you here, morning
Love me, to love me, love me, love me
Gotta have ya loving always waiting here waiting on you
So tired of waiting for you I need you here with meWaiting in the morning, always waiting here
Waiting for you, waiting on you
Gotta have you loving always, waiting here, waiting on you
I'm tired of waiting on you, baby, but I need youWaiting in the morning, always waiting here, waiting for you
I need you here with me in the morningI want to wake up to you, baby
Will you be there in the morning?
I need you right here with me to love me
To love me, love me, love me in the morningWill you be there? Morning
Love me, love me, love me
I need you I need you, I do
I can't let you go I don't know how toIn the morning, morning to love me
Love me, love me in the morning, morning
Love me, love me, love, I need you in the morning
I need you in the morning, I need you all the time
I guess, I do I just do, baby, in the morning
