Erase It Again

Sparta

You put your fist in the ground
You went from quiet to loud
You found you're broken in half
TodayYou set a fire to forget
To burn up all your regret
But really nothing has changed
TodayYou can't go on this way
You can't move onErase and start it again
Accidents happen but these cuts don't scar
Erase and start it again
Mistakes dig in and you've gone too farYou find you're living in fear
You've been dying for years
You hit the end of the road
TodayCondemned but couldn't understand
You tried but pride held you back
Your eyes are open again
TodayYou can't go on this way
You can't move onErase and start it again
Accidents happen but these cuts don't scar
Erase and start it again
Mistakes dig in and you've gone too farYou can't go on this way
You can't move onErase and start it again
Accidents happen but these cuts don't scar
Erase and start it again
Mistakes dig in and you've gone too farErase and start it again
Erase and start it again
Erase and start it again
Erase and start it, start it again
