Treat You Right

Myles Nelson

Verse:
Weâ€™re on a one lane dirt road
Sunshine on your clothes
Anything goes
While youâ€™re laying the back of my bed
We can ride off get lost
Anything that you want
Our friends try to call
Rather be here with you instead
Crank the radio up to 23
Your hands are in the air
So wild and free
Shotgun girl by my side
I wanna get lost in your crazy mind
Just like a dream.
Yeah e yea eh!

Chorus:
And come a little closer
And baby let me hold ya
Watch the sun go down
On the edge of town
Count the embers in your eyes
And come a little closer
Put your head on my shoulder
Feel the love right now
As I spin you around
Remember that your mine
And baby let me take your time.
I said baby let me treat you right.

Verse 2:
Walking down the city street
Long legs pretty feet
Donâ€™t care what they think
Youâ€™re what everybody wants
A frayed up tank top
Making every jaw drop
So hot

Youâ€™ve got everything that they donâ€™t
Girl youâ€™re burning up 200 degrees
The way that you stare so flawlessly
Making me feel so alive
I wanna take you out of these city lines
Just stay with me. Stay with me.

Bridge:
Just come on over. Come on over right now
Let the music take us over
The music take us over
Right now.
