

No Pain

Elephanz

Your skin,
shines among the diamonds underground
I would kill for a kiss in your down hair,
For a walk into your legs,
A side-walk a-like on eggs from your neck,
Your neck to the ground
Your hands,
Give my skin a free will and a life
When you move it burns like with a knife and,
Makes me king of where I am,
And my happiness has a name,
I have to say I love the way it sounds
Your kisses again
Smooth as music playin
My eyes on you,
With all you do girl I can't complain
Show how you make love,
Tell all about love,
Nobody can no never ever do me no pain Catch me,
When I just don't expect to be caught,
Move and fall and slip and like a soap
Melt, burn alive under my kisses,
Send your bairn overseas
And then get high just before we go down
Today,
It's a special week-end for the nerds,
There's a SCI FI meeting and the birds, yeah,
They all fly away from cold,
You know you have held on your shoulder,
The weight of me turning to a man.
Your kisses again
Smooth as music playin
My eyes on you,
With all you do girl I can't complain
Show how you make love,
Tell all about love,
Nobody can no never ever do me no pain Your skin,
shines among the diamonds underground
I would kill for a kiss in your down hair,

For a walk into your legs,
A side-walk a-like on eggs from you neck,
Your neck to the ground Your kisses again
Smooth as music playin
My eyes on you,
With all you do girl I can't complain
Show how you make love,
Tell all about love,
Nobody can no never ever do me no pain Your kisses again
Smooth as music playin
My eyes on you,
With all you do girl I can't complain
Show how you make love,
Tell all about love,
Nobody can no never ever do me no pain
