

What Does It Take (instrumental)

Dave Days

I woke up (Woke up)
In the middle of the night
Out of luck (Out of luck)
With this girl on my mind
(She got away now,
I'm trying to explain how) I fell in love (I Fell in love)
That's what I like to call it
But not enough (But not enough)
It's like I never saw it (Drifting away I am
Finding words to say)
But it all goes
Whoa (x8)
(But it all goes) What does it take to get you
If I never met you (et you)
I wouldn't have ran
Across the country like
I'm out of my mind What does it take to hold you
(Ah Ohh aah Ohhhhhh)
When I'm here without you
(Ah Ohh aah Ohhhhhh)
I don't know where to start (Know where to start)
I gotta find you and your heart (Your heart, your heart)
Before it falls apart I stayed up (Stayed up)
In the dead of the night
I made plans (Made plans)
If they turn out right
(You'll close your eyes and
Think about the times when)
Think about it We fell in love (Fell in love)
But didn't try to say it
Knew what it was (Knew what it was)
The moment that we played it (We all lose sometimes
I can't get her off my mind)
I can't get her (Whoa whoa)
I'm Finding words to say
But it all goes
(Whoa whoa) What does it take to get you
If I never met you
I wouldn't have ran

Across the country like
I'm out of my mind What does it take to hold you
(Ah Ohh aah Ohhhhhh)
When I'm here without you
(Ah Ohh aah Ohhhhhh)
I don't know where to start
I gotta find you and your heart (Your heart, your heart)
Before it falls apart What does it take to make it real
The world still spins and
I'm still feeling
Your hand right next to mine
(I play it back thousand times) I wish I took a photograph
For every moment that we laughed
I'm hung up and can't relax
(Because she's so far away) What does it take to get you (x3) (Whoa)
If I never met you (Whoa)
I wouldn't have ran
Across the country like
I'm out of my mind What does it take to hold you
(Ah Ohh aah Ohhhhhh)
When I'm here without you
(Ah Ohh aah Ohhhhhh)
I don't know where to start
I gotta find you and your heart
Before it falls apart (Whoa) (...)
What does it take
I'm finding words to say
Before it falls apart (x2)
Yeah yeah
Before it falls apart...
