Cable35

Where did you go this time alone
Can I come along
we got a friend, where did he go
Can I come alongMust have been real low
Must have been real lowWere did you go I feel so wrong
Can't be alone
I am so lost out of control
Can I come alongMust have been real low
Must have been real lowWhat you gonna do now when you know that it's all coming backWhere did you this time alone
We got along and I'm not wrongI think I'll just leave you on your own
Leave me alone
I just can't keep going round and roundMust have been real low
Must have been real lowWhat you gonna do now when you know that it's all coming backAnd sometimes I feel like being alone
Sometimes I feel like being alone
