

# Beautiful People

## Pet Shop Boys

City life just leaves me weak  
All this madness on the street  
Need to get away today, live my life a different way  
Is it only fantasy to dream about a perfect me? I wanna live like beautiful people, give like beautiful people  
With my beautiful people around  
I wanna live like beautiful people, give like beautiful people  
With my beautiful people around Buy the latest magazine and aspire to the dream  
Perfect home and perfect kids  
Not a life lived on the skids  
Is it only fantasy or could it be reality? I wanna live like beautiful people, give like beautiful people  
With my beautiful people around  
I wanna live like beautiful people, give like beautiful people  
With my beautiful people around Now I can see myself without a care in the world  
It's a sun shining, money spending  
Green and healthy world  
Is it only fantasy or could it be reality? I wanna live like beautiful people, give like beautiful people  
With my beautiful people around  
I wanna live like beautiful people, give like beautiful people  
With my beautiful people around
