

# THAT'S LIFE

## Pop Eye

I like baby talking, popcorn without butter  
And any boy who will pay attention to these requirements  
    I'm an optimistic beauty, never impolite  
Easy like Saturday, mid-day, breezy, chilled-out, dumb grrl  
    That's life with me, I know  
    Around and around you will go  
    But if I French-kiss you in the broad daylight  
You'll fall in love, oh, oh, oh, that's life with me, I know  
    Well I am pretending to be a free-bouncing lover  
    I wear my defensive mask of optimism like a badge  
    And ultimately I am much too lazy to change  
I'm rather conditioned to my life of melodrama  
    That's life with me, I know  
    Around and around you will go  
    But if I French-kiss you in the broad daylight  
You'll fall in love, oh, oh, oh, that's life with me, I know  
    And you'll know with me, that's how it will be my friend  
    A roller coaster ride, you won't forget  
    I am just a mess, I am just a mess at best  
    A blue-ribbon, prizewinner till the end  
    That's life with me, I know  
    Around and around you will go  
    But if I French-kiss you in the broad daylight  
You'll fall in love, oh, oh, oh, that's life with me, I know  
    That's life with me, I know  
    Around and around you will go  
    But if I French-kiss you in the broad daylight  
You'll fall in love, oh, oh, oh, that's life with me
