

# Who Invented the Wheel

Trisha Yearwood

I wanna know who invented the wheel  
Tell me who discovered steel  
It was the wheel and the steel that caused this pain  
And made the car that took him away  
I wanna know who invented the wheel I wanna know who found the rock  
Tell me who laid the black top  
It was the rock and the black top that caused this pain  
And made the road for the car that took him away  
I wanna know who invented the wheel Somebody give me a name  
'Cause I just need someone to blame  
For all of this heartache and pain I've been feelin'  
Since he had to go  
I wanna know I wanna know who invented the time  
I didn't spend when he was mine  
It was all that time I didn't take  
It was the rock and the black top that made the highway  
For the wheel and the steel for the car that took him away Somebody give me a name  
'Cause I just need someone to blame  
For all of this heartache and pain I've been feelin'  
Since he had to go  
I wanna know, oh, I wanna know I wanna know who invented the wheel
