

# Forever Again

Melanie C

Sometimes I try, sometimes I dont  
Sometimes the way I feel inside is gonna show  
You know were all the same I know youre tired, you try to talk  
But you think I dont hear you anymore  
Here it comes again  
But sometimes you just take it too far You can shoot me down and call me names  
Scream until the neighbors all complain  
I know youll tell your friends its all my fault  
And I will take the blame but give me back forever again Sometimes you try sometimes you dont  
Sometimes the way you feel inside is gonna show  
But some things never change So walk away and count to ten  
Say how you feel, dont say that again  
Well find another way  
Cause you dont have to take it so far You can shoot me down and call me names  
Scream until the neighbors all complain  
And I know youll tell your friends its all my fault  
And I will take the blame but give me back forever again If feels like Im breathing under water  
It feels like Im watching my whole world crash  
And you can say you dont know if you love me  
But never that you never have You can shoot me down and call me names  
Scream until the neighbors all complain  
I know youll tell your friends its all my fault  
And I will take the blame just give me back forever again
