1845

One Minute Silence

1845 - until the fires die
All our hopes and our dreams are a far cry
1845 - until the hate dies
You wanna burn with the rest be my guest - die
All the sticks and the stones and the names fly
1845 - under a dark cloud1845 - look into my eyes
You wanna walk in the past
Is it black enough now
Let's take another ride
1845No more, I see no reason to be,
Not for a dream, not for a lie,
Not for a queen, not for a king
Not for the words in the song that you sing,
The way we live, the way we die,
The way it is - hold your head up
The way we live, the way we die,
The way it is - hold your head up
1845
Let's take another rideNo more, I see no reason to die,
Not for a flag, not for a high,
Not for a god, not for a book,
Not for the world and the way it should look
The way we live, they way we die,
The way we live, the way we die,
The way it is - hold your head up
The way it is - hold your head up
Until the fires die - A million deadIs it black enough now?
1845
