

# True Colors

## Agustín Amigó

You with the sad eyes  
Don't be discouraged  
    Oh I realize  
    It's hard to take courage  
    In a world full of people  
    You can lose sight of it all  
    And the darkness, inside you  
    Can make you feel so small  
    But I see your true colors  
        Shining through  
        I see your true colors  
        And that's why I love you  
So don't be afraid to let them show  
    Your true colors  
    True colors are beautiful  
        Like a rainbow  
        Show me a smile then  
    Don't be unhappy, can't remember  
        When I last saw you laughing  
        If this world makes you crazy  
    And you've taken all you can bear  
        You call me up  
        Because you know I'll be there  
        And I'll see your true colors  
            Shining through  
            I see your true colors

    And that's why I love you  
So don't be afraid to let them show  
    Your true colors  
    True colors are beautiful  
        Like a rainbow  
        So sad eyes  
    Take couraged now  
        Realize  
    When this world makes you crazy  
    And you've taken all you can bear  
        You call me up  
        Because you know I'll be there

And I'll see your true colors  
Shining through  
I see your true colors  
And that's why I love you  
So don't be afraid to let them show  
Your true colors  
True colors, true colors  
Are shining through  
I see your true colors  
And that's why I love you  
So don't be afraid to let them show  
Your true colors, true colors  
True colors are beautiful  
Beautiful, like a rainbow
