

# Metal Machine

## Mythic Force

I have a phobia  
A fear of the dark  
Afraid to shoot strangers  
The animal talksGuns scare me shitless  
But love gun's my friendThe sentinel's coming  
But is this the endRiding on this crazy train  
I'm going paranoid  
Watch me lose my mind  
And break the lawI'm a metal machine  
It's close to midnight and  
He's barking at the moon  
I'm a metal machine  
The rainbow in the dark is shiningI'm only metal machine  
It's close to midnight and  
He's barking at the moon  
I'm a metal machine  
The kings of metal ride the skyIs this st. anger  
The ultimate sin  
Or have I really  
A black knight withinThe gates of Babylon  
Are open and wide  
Shout at the devil  
There's nowhere to hideFighting for the world to keep  
The wild child in it's cage  
Broke my metal heart  
Against the wallI'm a metal machine  
It's close to midnight and  
He's barking at the moon  
I'm only metal machine  
the rainbow in the dark is shining  
I'm a metal machine  
It's close to midnight and  
He's barking at the moon  
Come touch my metal machine  
The kings of metal ride the sky
