

Stay Different

4Lyn

How can I creep when I'm moving just like them?
How can I creep when I'm moving just like them?
How can I creep when I'm moving just like them?
How can I creep when I'm moving just like them? You try so hard to be independent,
but you're nothing but a copy of what you idolize.
You say you're tolerant,
but you feel contempt for everything and everyone
that thinks any other way.
Why don't you try to keep your concentration on
what's important - and what can slide? How can I creep when I'm movin' just like them?
How can I sleep when I'm dreamin' just like them?
How can I... when I just want to be different?
How can I laugh when I'm livin' just like them?
How can I feel when I'm feelin' just like them?
How can I... when I just want to be different?
It's not the things you wear,
it's not the way you walk.
It's the muthafukkin' way that you think, baby.
Your ideology is for idiots.
Idiots with no style,
idiots of your kind! Why don't you try to keep your concentration on
what's important - and what can slide? How can I creep when I'm movin' just like them?
How can I sleep when I'm dreamin' just like them?
How can I... when I just want to be different?
How can I laugh when I'm livin' just like them?
How can I feel when I'm feelin' just like them?
How can I... when I just want to be different? (Different...)
How can I creep when I'm movin' just like them?
How can I sleep when I'm dreamin' just like them?
How can I... when I just want to be different?
How can I laugh when I'm livin' just like them?
How can I feel when I'm feelin' just like them?
How can I... when I just want to be different?
