Everytime I Hear Your Name

Cascada

Everytime I hear your name
Everytime I hear your nameWhen you walked away from me
You said your last goodbye
I never thought the six months in my life
I have tried to forget
Get you out of my head
this feeling inside
The pain won't go away'Cause everytime I hear your name
The world stops for a moment
Baby with the single word
I can see your face again
'Cause everytime I hear your name
The world stops for a moment
And I'm taking back to what we had
Everytime I hear your name
Everytime I hear your name
Everytime I hear your namefound a girl
To fill my empty space
But I'm stuck with the love that we shared
And time just can't erase
I have tried to forget
Get you out of my head
this feeling inside
The pain won't go away'Cause everytime I hear your name
The world stops for a moment
Baby with the single word
I can see your face again
'Cause everytime I hear your name
The world stops for a moment
And I'm taking back to what we had
Everytime I hear your name
Everytime I hear your name'Cause everytime I hear your name
The world stops for a moment
Baby with the single word
I can see your face again
'Cause everytime I hear your name
The world stops for a moment
And I'm taking back to what we had
Everytime I hear your name
