Unbreakable

[The Suicide Machines](#)

Friendships bloom but everything dies
Seasons change its all part of life
A storm is coming in I can see in your eyes
And we just don't agree we can't compromiseDon't try to make me - Don't try to break me
Don't even try cause you just won't phase me
Don't try to reach me - It's much too late see
I hate everybody - Everybody hates me
I hate everybody - Everybody hates meI don't buy what you're trying to sell
Guarentees more like empty promises
Smile and wave yet you don't know my name
And I know who you are I've been there before
The things that they say I can't take anymore it kills meDon't try to make me - Don't try to break me
Don't even try cause you just won't phase me
Don't try to reach me - It's much too late see
I hate everybody - Everybody hates me
I hate everybody - Everybody hates meWe work so hard just to lose
Thats why we're building up walls to put up around us
Walk through life in a maze with no direction
No sight only hope that you'll find your wayThey'll never break me down- break down
Becasue I'll never back down- stand tall
They'll never change my mind- stay strong
We'll overcome this timeThrown away and pushed to the back
Moved aside I see where you're at
The price that they say is just too much to pay
And I don't have the means I can't find a way
I don't want to leave but it's too hard to stay it kills meDon't try to make me - Don't try to break me
Don't even try cause you just won't phase me
Don't try to reach me - It's much too late see
I hate everybody - Everybody hates me
I hate everybody - Everybody hates meDon't try to make me - Don't try to break me
Don't even try cause you just won't phase me
Don't try to reach me - It's much too late see
I hate everybody - Everybody hates me
I hate everybody - Everybody hates me
I hate everybody - Everybody hates me
I hate everybody - Everybody hates me
