High On Life

Flipsyde

Every time I close my eyes, I see it
The way you occupied my time, I need it
Got addicted to the smile, I feel it
You got to know what's on my mind, read itI feel so high, high on life
I see heaven in your eyes
High on life, don't you waste your timeWherever you go, I'll be there
You know, you can't hide from me
I was the one you needed
To feel so high on life, so freeI feel so high, high on life
I feel so high, read it in my eyesEvery promise that we made, keep it
All the love I really need, you give itI feel so high, high on life, high on life
I feel so high, high on life
I see heaven in your eyes, high on life
Don't you waste your timeI feel so high, high on life
I see heaven in your eyes, high on life
Don't you waste your time
High, high on lifeI feel so high
I feel so high on life, so free
I feel so high, high on life
