

# Disappearing

## Peter Murphy

You came, I saw  
I held your hand outta sight  
'Cause your cause is just a cause  
'Cause I came here to be with you I'm like you I'll get inside you  
Just like you came to be me  
I'll do the mirror walk  
Disappearing in her hand He says to her "Your eyes are sick"  
He says that mine are fine  
She says "That's not what the doctor said"  
He takes her word for it this time It that's me you, you me thing  
The who's who of the lovers club  
You can't get a grip on nothing now can you?  
There's no love where there is no love, no How did I get so lucky  
Walking in these shoes?  
As a kid I yearned for this  
Disappearing in her hand I like you, I'll look out from you  
Just like you say the word of full return  
Come and go, stay the same  
Disappearing in her hand Looking for the ocean wide, ocean swimming  
Like a fish is swimming in the ocean  
They heard that God was the water  
But they were swimming in it all the time All the time, hand  
Disappearing in her hand  
Disappearing in her hand  
Disappearing in her hand  
Disappearing in her hand  
No, no, no, no Hand no, no, no  
Disappearing in her hand  
Hand no, no, no  
Disappearing in her hand
