

Escape

Yuna

[Verse:]

I can feel the sunlight

On my face

Yea, I'm so happy[Verse:]

I packed my bags and

I'm not scared

Gonna go somewhere(Bridge 1)

Know I won't relieve you from the path that I was on

But I'm not gonna stay, I'm gonna try and move along

I'm not gonna change, I'm still the girl I was before

But if I stay in one place I can grow

So[Chorus:]

I'm on my way

I'm flying away

I want you here

Yea I could really use an escape

I could really use an escape[Verse:]

The world is like a book

Travel page by page

Break away from your cage[Verse:]

See new horizons

And lift blindfolds

Learn from your mistakes(Bridge 2)

I'm just gonna try and touch the sky, high up above

No one's gonna stop me from doing what I love

Keeping all the people who were there to take me on

Change these moments before they're gone(Chorus x3)

I'm on my way

I'm flying away

I want you here

I could really use an escape

I could really use an escape(Bridge 2)

I'm just gonna try and touch the sky, high up above

No one's gonna stop me from doing what I love

Keeping all the people who were there to take me on

Change these moments before they're gone
