Mad At Me

Vic Ruggiero

Sounds like a heart is breaking
Sounds like a heart is aching
Can't tell if its love or not
Still think I'm too young to die
Even though I cant say why

I can see the future when I look in your direction
Even with my eyes closed shut
First I see, you were mad at me
When you're not mad at me, we fall in love

You give me such confusion
Though I know it's just an illusion
And if its right or wrong
Still gonna sing my song
Even if it goes too long

I can see the future when I look in your direction
Even with my eyes closed shut
First I see, you were mad at me
When you're not mad at me, we fall in love

Can I make a confession
What I mean to give ain;t mine to give
And may I say, that I'm so cliche
cause everybody wants you anyway

It's an every day situation
It's chronic infatuation
And we will never know
If the tension will explode
If we never take this road

I can see the future when I look in your direction
Even with my eyes closed shut
First I see, you were mad at me
When you're not mad at me, we fall in love
