

Bones

Radiohead

I don't want to be crippled and cracked
Shoulders, wrists, knees and back
Ground to dust and ash
Crawling on all fours
When you've got to feel it in your bones
When you've got to feel it in your bones
Now I can't climb the stairs
Pieces missing everywhere
Prozac painkillers
When you've got to feel it in your bones
When you've got to feel it in your bones
And I used to fly like Peter Pan
All the children flew when I touched their hands
They say you've got to feel it in your bones
They say you've got to feel it in your bones
