

# Lovely 2 C U

## Goldfrapp

A wonderful place to be, the birds are singing  
The dreams that are sent to me, everyone's waving  
But there's no noises, the smell of your skin  
The glittering lights of hell, I'm missing sin  
La lovely 2 C U, la lovely 2 C U  
I wanna get out of here, inhale your  
sky  
A beautiful place to be, so I don't know why  
They're selling us something I don't need  
They're selling us something babe, you shouldn't believe
