

Politicalamity

Extreme

Wars and rumors
Of wars no one knows what for
Toys and soldiers
Deployed on some foreign shore
Lords and rulers
Destroy diplomatic rapport Communists, dictatorships
Democracies, hypocrisies
Ask not what your country can do
To a one world governmental zoo? Political, political
Politicalamity
It's anarchy
Political, political
Politicalamity Rich and poor
Salute your country's colors
Less is more
When one oppresses the other
Pride and power
Decorated upon collars Donkeys, bears and elephants
All paper trained on parliament
I said, "Ask not what your country can do
To a one world governmental zoo?" Political, political
Politicalamity
It's anarchy
Political, political
Politicalamity Ask not what your country can do
To a one world governmental zoo?
Ask not what your country can do
To a one world governmental zoo? Political, political
Politicalamity
It's anarchy
Political, political
Politicalamity, yeah, yeah, yeah Yeah, yeah, yeah
It's anarchy Well I say we got trouble, trouble, trouble
Trouble, trouble, trouble, trouble
We saw that was coming
[Incomprehensible]
