## **Political amity**

## **Extreme**

Wars and rumors
Of wars no one knows what for
Toys and soldiers
Deployed on some foreign shore
Lords and rulers

Destroy diplomatic rapportCommunists, dictatorships Democracies, hypocrisies

Ask not what your country can do
To a one world governmental zoo?Political, political

Politicalamity

It's anarchy

Political, political

PoliticalamityRich and poor

Salute your country's colors

Less is more

When one oppresses the other

Pride and power

Decorated upon collarsDonkeys, bears and elephants

All paper trained on parliament

I said, "Ask not what your country can do

To a one world governmental zoo?"Political, political

Politicalamity

It's anarchy

Political, political

PoliticalamityAsk not what your country can do

To a one world governmental zoo?

Ask not what your country can do

To a one world governmental zoo?Political, political

Politicalamity

It's anarchy

Political, political

Politicalamity, yeah, yeah, yeah, yeah, yeah, yeah It's anarchyWell I say we got trouble, trouble

Trouble, trouble, trouble

We saw that was coming [Incomprehensible]
