

# That's What I Do (feat. Sam Palladio)

## Nashville Cast

Can you sleep when you lie down  
Or are you still haunted  
Are you missing the fight now  
Does it feel like you're broke  
Do you stare out the window  
And pray for a good storm  
Some way to get reborn Do you forget that you're gone  
At the break of the blue morning dawn  
Do you believe in a flash of a dream  
I'm with you  
Do you slip back in time  
Stay still and try not to move  
'Cause, baby, that's what I do  
Do you lie to your friends now  
And then you're okay  
Do you drive through the city  
Just counting the street lights  
Three a.m on a Thursday  
And nothing is open  
'Cause you're just that broken Do you forget that you're gone  
At the break of the blue morning dawn  
Do you believe in a flash of a dream  
I'm with you  
Do you slip back in time  
Stay still and try not to move  
'Cause, baby, that's what I do  
Do you forget that you're gone  
In the break of the blue morning dawn  
Do you believe in a flash of a dream  
I'm with you  
Do you slip back in time  
Stay still and try not to move  
'Cause every time since I lost you  
Oh, baby, that's what I do That's what I do
