

Differing Worlds

Mimes On Rollercoasters

They travelled to the new world aboard their tiny ship
With faith their god would see them safely through the perilous trip
Abandoning the old world in search of something new
Risking all they had for they were the chosen few

Differing worlds - In - Differing times
Differing dreams - For - Differing minds!
Differing reasons - And - Differing lives
Differing truths - Form - Differing lies!

They settled where they landed and were finally left alone
Shedding all their baggage from the world they left behind
Eventually the word got out to the masses back at home
The others came in droves seeking a new and better life

Differing worlds - In - Differing times
Differing dreams - For - Differing minds!
Differing reasons - And - Differing lives
Differing truths - Form - Differing lies!

It's been generations since we settled our new land
Ironically it has become what they'd left behind
Looking to the stars now we're plotting our escape
With faith our god will see us safely through the perilous trip

Differing worlds - In - Differing times
Differing dreams - For - Differing minds!
Differing reasons - And - Differing lives
Differing truths - Form - Differing lies!
