Pass This Time

Peter Allen

I never thought it would come to this
I thought the big one had come and gone
And after all those years of hit and miss
I was content to live my life alone
But you are the fire I can walk right into
And even now as I feel myself begin to

Chorus:
We could be fun
We could be fine
We could be working a perfect crime
This could be the big one
One of a kind
This might be it
But I think I'm gonna pass this time

I know the number and I'm not gonna play
I'm past caring if I lose or win
And only end up crying in some sad cafe
There's something around my heart that's wearing thin
But you are the weakness I could be strong for
You are the reason my life could go on for

Repeat Chorus
