Controlling my feelings for too long
Controlling my feelings for too long
Controlling my feelings far too long
Controlling my feelings far too longForcing our darkest souls to unfold
And forcing our darkest souls to unfold
And pushing us into self destruction
Pushing us into self destructionThey make me
Make me dream your dreams
And they make me
Make me scream your screamsTrying to please you far too long
Trying to please you far too longVisions of greed you wallow
Visions of greed you wallow
Visions of greed you wallow
Visions of greed you wallowThey make me
Make me dream your dreams
And they make me
Make me scream your screamsControlling my feelings far too long
Controlling my feelings far too longAnd forcing my darkest souls to unfold
And forcing our darkest souls to unfold
And pushing us into self destruction
And pushing us into self destructionThey make me
Make me dream your dreams
And they make me
Make me scream your screams
