

Angel In Black

Autograph

She lies waiting for another kill
Hiding her evil behind her thrill
Another victim, another night
Weaker heart don't even fight Well, I didn't realize
But Evil's in her eyes Angel, angel in black
She took me down to hell and back
She's coiled and ready to attack She's a
Angel in black
Angel in black
She's an angel in black It's temptation, I can't resist
I'm just a number on her list
[Incomprehensible] good, she always win
Like a segregated dog, she'll take you in Well, I didn't realize
But Evil's in her eyes Angel, angel in black
She took me down to hell and back
She's coiled and ready to attack She's a
Angel in black
Angel in black
She's an angel in black Helpless, there's no escape
She's in my blood, my heart won't wait
Hopeless, I'm on my knees
There ain't no cure for this disease, oh, oh Well, I didn't realize
But eye's in her eyes Angel, angel in black
She took me down to hell and back
She's coiled and ready to attack She's a
Angel in black
Angel in black
I know she's comin' back Angel, angel in black
She took me down to hell in back
She's coiled and ready to attack She's a
Angel in black
Angel in black
She's an angel in black
