White Lies

Mr Hudson

Lying I still can?t find the truth.
So I spin another line on you
You can?t blame a fella for trying
I?m hoping you eat my every word
Doesn?t it taste so good?
But deep inside I?m dying
Oh! I wanna word with you
If there?s never a perfect time
It?s time for another white lie
White lies just another white lie
I did it to get close to you
And I will tell a million more
White lies just another white lie
I do it to get close to you
And I will tell a million more white lies
One day I know you?ll understand
That I didn?t really have much choice
I just had to hide it
Sometimes good men do bad things

Just as bad men can do good
Tell me which way you like it
Oh! I wanna word with you
There?s never a perfect time
However much I try
Oh! Why don?t you sit yourself down?
Cos we gotta talk this through
It?s time for another white lie?
White lies just a little white lie
I did it to get close to you
And I will tell a million more
White lies just a little white lie
I do it to get close to you
And I will tell a million more white lies
Oh-oh oh-oh
I was just playing girl I was just playing by your rules
Oh-oh oh-oh
Just another white lie and I?ll tell a million more
White lies?
