

White Lies

Mr Hudson

Lying I still can't find the truth.
So I spin another line on you
You can't blame a fella for trying
I'm hoping you eat my every word
Doesn't it taste so good?
But deep inside I'm dying
Oh! I wanna word with you
If there's never a perfect time
It's time for another white lie
White lies just another white lie
I did it to get close to you
And I will tell a million more
White lies just another white lie
I do it to get close to you
And I will tell a million more white lies
One day I know you'll understand
That I didn't really have much choice
I just had to hide it
Sometimes good men do bad things

Just as bad men can do good
Tell me which way you like it
Oh! I wanna word with you
There's never a perfect time
However much I try
Oh! Why don't you sit yourself down?
Cos we gotta talk this through
It's time for another white lie?
White lies just a little white lie
I did it to get close to you
And I will tell a million more
White lies just a little white lie
I do it to get close to you
And I will tell a million more white lies
Oh-oh oh-oh
I was just playing girl I was just playing by your rules
Oh-oh oh-oh
Just another white lie and I'll tell a million more
White lies?
