Willie the Weeper

Louis Armstrong

Yonder comes Willie the weeper saddest looking sight in all the town
Had a new love but couldn't keep her now Willie's crying heart is broken downYou should have seen the
smiling face that Willie wore

The day he found the thrill of her embrace

For the first time in his whole life Willie fell in love

But I took the smile right off of Willie's face took his place

Yonder comes Willie the weeper...I put on the smiling face that Willie wore and took her round for everyone to see

But she found someone else that she wanted more
Now Willis's smiling face laughs back at me look and see
I'm just like Willie the weeper saddest looking sight in all the town
Had a new love but couldn't keep her now mine and Willie's hearts are broken down
