Angel of Light

Rhapsody of Fire

A tragic dark tale
A message of love
From no man's land I
I will follow ancient rhymes
Cut me and I will bleed
If that's all you want
My mind is free and I close my eyes
I'm waiting for changes
In this old worldLate just, just too late
To take a chance againYou, like a ghost that I feel
Makes me warm, makes me real
In my heart and my lonely soulTell me your secrets
Angel of light
Where time has no meaning
In cold winter nightsYou, can you hear me
Are you there I know it's lateYou, like a ghost that I feel
Makes me warm, makes me real
In my heart and my lonely soulTell me your secrets
Angel of light
Where time has no meaning
In cold winter nightsTell me legends untold
When angels nee to know how to fly
Let the dance of nature inspire me
And illusion and reality fadesTell me your secrets
Angel of light
Where time has no meaning
In cold winter nightsWhispers and dark rhymes of
My angel of light
'Cause where time has no meaning
I'll stand with my pride, my pride
