

This Time Darlin

Social Distortion

As I'm looking back on broken
Down dreams heartbreaks and
Memories that I've had. I made it
Through the hard times and came
Back a stronger man but this time
Darling it's just not the same
Down the lonely stairs with a
Suitcase in my hand misery can be
A heavy load. I've made it through the hard
Times and in pain I made it back
But this time darling it's just not
The same In the morning I was lonely but
Never bothered to cry never even
Stopped to wonder why leaving
Was just another part of the
Game but this time darling it's
Just not the same In the morning I was lonely but
Never bothered to cry never even
Stopped to wonder why leaving
Was just another part of the
Game but this time darling it's
Just not the same As I'm looking back on broken
Down dreams heartbreaks and
Memories that I've had. I made it
Through the hard times and came
Back a stronger man but this time
Darling it's just not the same This time darling it's just not the same
This time darling it's just not the same
This time darling it's just not the same
