You Kill Me

The Epoxies

I'll wait for this I'll wait for you to rise
And you bring me through you make my senses shine
I drink from you a sensation close to wine
And I bust them blind
And I am no longer mineYou kill me
(Repetition Ridicule)
You kill me
(Integration Go to school)
You kill me
(Population Override)
You kill me
(Radiation Suicide)You leave so quick is there logic to this price
Let this sensation slip away I get pulled out in the tide
I want to live but I feel this stitch inside
Fixation overdrive you make my senses windRepetition Ridicule
Integration Go to School
Population Override
Radiation Suicide
