Don't Shut Me Out

Bread

Don't shut me out, shut me out, out of your life
Don't shut the door, shut the door, door on my life
You been locking apart of your love away
You been holding out on me
I just want to get down deep inside of youSo that I can set you free
Don't shut me out, shut me out, out of your mind
Don't be afraid, be afraid, afraid of what I might find
I would never be judge you for what you are
You can say what's in your heart
It's the things that you're hiding that bother me
And it's keeping us apart so
If you really love me like you like to say you
Really doGotta open up and let the rest of you come
Shining through
Don't shut me out, shut me out of your life
Don't lock the door, lock the door, door on my life
Such a beautiful thing we could come to know
If you'll only trust in me
I just want to get down deep inside of you
So that I can set you free and
Turn you loose so you can see, soDon't shut me out, shut me out, out of your life and
Don't shut the door, shut the door, door on your
Sweet, sweet, yeah
