

Wishin' On the Same Star

Pure X

when your light goes down in the evening
and the blanket pulls up to your head
i'm gonna be right there where you are
 girl we are wishing, yes we are
 we are wishing on the same star
when the snow falls down on your city
and you may not even know where i am
i'm gonna be right there where you are
 girl we are wishing, yes we are
 we are wishing on the same star
when you're standing right there in your kitchen
 and your bread is beginning to rise
i'm gonna be right there where you are
 girl we are wishin, yes we are
 we are wishing on the same star
