

# For No One

## Korn

I'm getting out I'm leaving here  
I'm kicking right through this door  
I stole your girl who was my girl  
I always said shes a whore  
Punch to accelerate  
From everything I hate  
Now this is my kind of disaster  
We give and take what we want then we'll burn  
Own the liquor store  
Pick up our friends tell them its on and they  
Know that's what its for  
Sofa for kicking it  
Porn on the TV screen  
These spinning rims don't come no faster We can drive all night  
And we're not gonna stop for the pigs or no one  
Just follow the line  
And we're not gonna stop for the pigs or no one We're flipping off the people who dissed on us  
Thats just our game  
We're throwing bricks right through their windows and then we drive away  
And brake and spin around throw things I could of found  
We keep on changing our direction  
Go past the school the church the places that  
Caused us and we're gone  
If we keep going forward maybe forget where we 're from  
We're gonna shake things up  
We're gonna break it down  
We fill this car with our rejection We can drive all night  
And we're not gonna stop for the pigs or no one  
Just follow the line  
And we're not gonna stop for the pigs or no one You can never go back, not even  
If you wanted to no way  
You're in deep now  
You've been fucking up real good lately  
One minute you come from zero  
Go now We can drive all night  
And we're not gonna stop for the pigs or no one  
Just follow the line  
And we're not gonna stop for the pigs or no one
