Don't Mix Your Drinks

Elbow

Don't mix your drinks
Don't mix with him
It will kill you one day
Good advice, sound adviceWhy can't you be like him, like me?
Look what you could achieve
I'm coming cap-in-hand, begging you to listen
Something draws me in
And I just can't christen it, just can't christen itDon't mix your drinks
Don't mix with him
It will kill you one day
Good advice, sound adviceYou need to be like this, like me
I'm coming cap-in-hand, begging you to listen
Something draws me in
And I just can't christen it, just can't christen it
