

# Don't Mix Your Drinks

## Elbow

Don't mix your drinks  
Don't mix with him  
It will kill you one day  
Good advice, sound advice Why can't you be like him, like me?  
Look what you could achieve  
I'm coming cap-in-hand, begging you to listen  
Something draws me in  
And I just can't christen it, just can't christen it Don't mix your drinks  
Don't mix with him  
It will kill you one day  
Good advice, sound advice You need to be like this, like me  
I'm coming cap-in-hand, begging you to listen  
Something draws me in  
And I just can't christen it, just can't christen it
