

# Note to Self

## Ho-Hum

Note to self, 'Better call  
'She'll be mad as hell if I know her at all'  
'Cuz today's her birthday and I almost forgot  
Note to self, 'I better not'  
Note to self on my way home  
'Don't forget the roses and Dom Perignon'  
You know how she loves a great big surprise  
Note to self, 'You're skating on thin ice'  
Hmm, I ain't gonna screw it up this time  
Hmm, I'm gonna really make her proud, she's mine  
Note to self, 'Remember when  
You use to light her up when you walked in'  
And she stole your breath away that's the way it was  
Every time you kissed her and she still does  
Hmm, I ain't gonna mess it up this time  
Hmm, I'm gonna really make her proud, she's mine  
Turning down the street I'm pulling in the drive  
Door ain't locked so I step inside  
She ain't here to greet me so what's goin' on?  
Note self, 'She's already gone'  
Hmm, gone  
Hmm, gone  
Hmm, I guess I really messed it up this time
