McFly

Pinkly Smooth

Why is this happening to me?
I've been back in time
My family ties are much too strong
And there's a wolf insideAnd lately he's been shaking all night
And I wonder how they could have let you die
Well, hold on strong and behold from the life you leave behindThis could be catastrophic, mind pollution
What you had was real to me
Ooh, yeahWhy is this happening again?
I'm being ostracized
And I can't seem to calm you down
I'm still your father, child, whoa, whoaAnd lately he's been shaking all night
And I wonder how he could've let you die
Well hold on strong and behold from the life you leave behindThis could be catastrophic, mind pollution
What you had was real to me,
OohAnd, ooh, not again
This is not my memory
Taken from my friendsAnd lately he's been shaking all night
I wonder how he could've let you die
