

# I Found God

Kgp

I want peace in my life  
But there's always a sword  
The child in me  
Has become a man of warIt's not flesh and blood  
It's forces unseen  
I'm carried to higher places  
Than I've ever beenI will not fear  
What man can do  
Survival is a painful toil  
Give me strength to see it throughI found God  
I want you to know  
I found GodWhere He leads, I will follow  
What He pours, I will swallow  
When He twists, I will bend  
All my trust in HimMy tears have been my meat  
Deep calls unto the deep  
Fill my wanting mouth  
With good things renewedIn the Garden of Indecision  
I have no apprehensionI am nothing without You
