

# Earthquake

## Chixdiggit!

whenever I'm around you're never really happy  
everything I ask you ends up really snappy  
you're always walking round, stumble on the floor  
cause you don't wanna be with me no more it's like an earthquake, earthquake  
whenever we're together it's like an earthquake, earthquake  
whenever we're together earthquake, earthquake  
whenever we're together earthquake, earthquake  
whenever we're together
