Bark and Bite

Fool's Gold

You moan like a fly
And chase the melting ice
No wrongs to right
A smashed tail lightAs long as there's bark
As long as there's bite
You'll say
That life is a game for lovers like theseYou know you'll land someday
You know you'll land someday
You know youll land
And youll tell us weve been savedMute swan
When will your day arrive?
You're barbed wire
Facing the skylineAs long as there's bark
As long as there's bite
You'll say
That life is a game for lovers like theseYou know you'll land someday
You know you'll land someday
You know youll land
And youll tell us weve been saved
