

Bark and Bite

Fool's Gold

You moan like a fly
And chase the melting ice
No wrongs to right
A smashed tail light As long as there's bark
As long as there's bite
You'll say
That life is a game for lovers like these You know you'll land someday
You know you'll land someday
You know you'll land
And you'll tell us we've been saved Mute swan
When will your day arrive?
You're barbed wire
Facing the skyline As long as there's bark
As long as there's bite
You'll say
That life is a game for lovers like these You know you'll land someday
You know you'll land someday
You know you'll land
And you'll tell us we've been saved
