

Perfect

Vanessa Amorosi

Stay forever who you are
Don't change a thing
Because you perfect You sway
Gently in the breeze
In between my dreams
It kinda makes me nervous Your storm
Is lighting striking down
It only strikes me once
But still be worth it CHORUS
In my dreams you were perfect
When I woke up you were perfect Love
As scaring as it is
Tell me is it real
If it ain't hurtin' I break
When the sounding on your face
My colours bleed to one
Nothing grows when your love is gone CHORUS
In my dreams you were perfect
When I woke up you were perfect Mmm even when you run
You're still worth it
Here and now the moment's perfect BRIDGE
Your barriers have now fallen down
But your love's still a part of me
The way you end should be the way you were found
Lost in spirit In a river or a stream
Happily you float
While I'm clearly drowning Regrets
I don't have not one
I'd do it all again
For you, I'd do anything CHORUS
In my dreams you were perfect
When I woke up you were perfect Mmm even when you run
You're still worth it
Here and now the moment's perfect Perfect
So perfect When you run
RUN, yeah, yeah, yeah, yeah, yeah RUN!
Even in my dream, when I wake up Perfect, yeah perfect
Baby, baby, baby,

Baby, baby, Yeah!Yeah, yeah
